S. S. Owners to Reduce Wages

NEW YORK, Jan. 5.—Wage reductions of fifteen per cent and upward will be put into effect immediately by the American Steamship Owners Association, Winthrop L. Marvin, general manager announced after a meeting today.

Wages of officers, Mr. Marvin said would be cut fifteen per cent with higher reductions for some other classes of employees. These cuts were necessary, he added, to meet the competition with foreign vessels.

It was pointed out that there is no wage agreement now existing between the ocean boatmen's union and the Steamship Owners Association.

SHE IS "FULL OF PEP" THEY SAY

She is Good-Looking and Gay and Is Always Ready for a Good Time

What is a girl popular? Look around and see what a good time the good-looking ones have all the time. Men seek them out and ask them to parties, dances and entertainments. And notice that it is not the doll-faced type real men like most, but the red-blooded girl with "pep" and happy good nature. Any girl who is tired and languid and has a poor complexion and dull eyes can improve her condition and be far happier if she will simply take Gude's Pepto-Mangan until she has put her blood into good condition. Red blood means "full of life" and "full of life" usually means happiness.

Try Gude's Pepto-Mangan and see how much better you feel. Doctors have used it nearly thirty years for weak, run-down people. It helps them get well. Sold in both liquid and tablet form.—adv.

What would the difference be?

by Mrs. Mary Preston
Cooking Expert and Food Analyst

I wonder if all men judge the quality of anything by its price? A neighbor of mine asked me the other day:

"Mrs. Preston, you say that a better baking powder than Heekin's cannot be made. Yet the cost is low. Now suppose someone made a baking powder that was so good it could sell for \$1.00 a pound. What would the difference be between that and Heekin's Baking Powder?"

I told him the difference would be that the manufacturer would make a much larger profit than The Heekin Company does. But I suggested that he buy a can of Heekin's for his wife and ask her opinion of it.

"Oh," he said, "she uses Heekin's." And when I asked him how she liked it, he replied, "Why she says it's the best baking powder she ever used. And it costs much less than any baking powder that even approaches Heekin's in quality."

Every woman will get successful baking results with Heekin's. It is a full-strength baking powder that keeps its strength until the last spoonful is used. No baking powder can be purer. There are no foreign ingredients added to create an unnatural effervescence or to give a false impression of quality. It is the favorite with thousands of women.

Heekin's is guaranteed. For if anything you bake—using Heekin's—does not turn out to your entire satisfaction, the price of the full can of baking powder and the price of the ingredients in whatever you bake will be returned to you. Simply list the prices and send with your name and address to The Heekin Company, Cincinnati, Ohio.

Buy a can today and use it—you'll like Heekin's.

AGENDA OF CANNES CONFERENCE WILL BE DETERMINED FIRST

French Want This Done and Britain Has Agreed to Program.

CANNES, Jan. 5.—(By the Associated Press.) The program for the forthcoming international economic conference was uppermost in today's conversations between the premiers and the chief delegates to the Supreme Council which meets in session here tomorrow.

The French view has been that the agenda should be strictly laid down in advance. It is understood that David Lloyd George, the British premier, agreed to this, and that the question will be the first discussed when the council goes into session.

M. Briand had a lengthy conversation today with the Marquis Della Torretta, the Italian minister of foreign affairs, and also saw Premier Theunis, of Belgium and Baron Hayashi, of Japan. The only official announcement after these talks was that the conversations were proceeding satisfactorily. Today's developments seemed to confirm the impression that the allies are agreed upon the principle of an economic conference, though still debating the details.

Reparations were discussed by the experts today. The Belgians stoutly opposing any modification in the schedule of payments that likely would compromise their priority on the 2,500,000,000 gold marks due by Germany. The French delegation is backing the Belgians on this point, but it is inclined to make concessions to the British viewpoint to the extent of reducing the cash payments to 500,000,000 gold marks annually and the rest of the reparations in kind. The British go farther than this and desire to reduce the deliveries in kind so that the total both in cash and in kind can be reduced about 25 per cent from the Paris agreement, or 1,500,000,000 gold marks.

JOHN STANBERRY RUNS AMUCK WITH SIX SHOOTER GUN

Officers Are Called and Man Is Arrested—Was Intoxicated.

In response to a series of alarming telephone calls that a man had apparently gone wild and was shooting up the place, Detectives J. N. Campbell and J. C. Lewis and Patrolman J. T. Clark prepared themselves for a little action and hurried to the scene which was Carl Mangrum's house on Colquhoun street. On their arrival they soon learned that John Stanberry was causing the trouble and he was placed under arrest.

It developed that Stanberry, armed with a long six-shooter, had emptied the weapon at Carl Mangrum and his brother-in-law, G. W. Callahan. Stanberry was said to have been in an intoxicated condition by the police. The two men whom the bullets were fired at claim that Stanberry came to the store which adjoined the house and immediately started an argument. He asked for a package of cigarettes and demanded that they be charged to his account. Mangrum, who operates the store told him that he already owed too much and besides would not pay his bill, whereupon Stanberry brought his pistol into play and fired three shots at the store owner. Mangrum ran to the street and made a dash for his home to procure a pistol for his protection but Callahan about this time appeared on the front porch and Stanberry directed his shooting at him, firing three times. The enraged man proved to be a poor marksman and all of the balls went wild. Fortunately for the two men who were being fired upon, Members of the house told the police that they had telephoned the police department and officers soon had the situation in hand.

Although intoxicated Stanberry, in broken language, said that the trouble was over the house in which he lived, this being owned by Mangrum. From what could be gathered from his remarks, it seems that he had received an order to vacate immediately and this led to the trouble. Mangrum, however, claims that the house had nothing to do with the argument.

FINE SCENE SETTINGS ARTISTICALLY REVEALED IN "FOOTLIGHTS"

That people can be judged by their homes, whether it be a many-roomed mansion, with a dozen baths, or a two by four sky-light room, or a shabby boarding house, is an accepted fact. Something of the personality of the inhabitants will pervade the place. Perhaps that is what makes the settings so interesting in "Footlights," a Paramount picture starring Elsie Ferguson, which comes to the Broadway Theatre, on Monday next.

In this picture of an American girl, who impersonates a Russian actress and as such becomes famous, the settings tell a story in themselves. The living room of Lisa Paranova, as she is known to the world, is furnished in true Russian style. The smallest accessory shows that Lisa Paranova has been accustomed to very luxury.

The bed room of this same apartment tells quite another story. The room shows the character of the actress as she is away from the demands put upon her by the public. Simplicity and refinement are the dominant notes. The furniture is Colonial, the hangings are chintz and the curtains are of net. Should anyone be permitted to glance into this room, the secret of the true identity of the actress would be revealed. So the American girl, who could so easily assume the role of a Russian, combines her two personalities successfully in her apartment. Reginald Denny plays opposite the star.

LEE-OAKES.

Benjamin Franklin Lee, of Martinsville, Va., and Miss Hattie Elizabeth Oakes were quietly united in matrimony Thursday afternoon, January 5, at 2 o'clock. The ceremony was performed by the Rev. J. C. Gentry, pastor of Mount Vernon M. E. church, South. The couple with a few members of their immediate families drove to the Mount Vernon parsonage, where the ceremony was performed. Immediately after the ceremony they took a train for Washington, D. C. They will spend a short while visiting place of interest in the North, after which they will return to this city.

COMMUNITY WELFARE WORK UNCOVERS REAL NEED

The Community Welfare Association yesterday received a request from a colored family for food. As is customary an investigation of home conditions was made before the order for food was placed. The man of the family said he had been out of work for over two months and that he could take any sort of a job. His wife is unable to work and he has two dependent children. The Welfare Association communicated with former employers of the man to determine his working ability. They were informed that the man did not seem physically able to work. He was then examined by a doctor and found to be tuberculous. He states he is absolutely out of money, that he has no relatives or friends who can provide for him and he does not know how his family could live even if he could arrange to pay for his care at Piedmont Sanatorium. The Community Welfare Association supplied him with food and coke, ordered a weekly allowance of groceries and arranged to get butter for him regularly. They will see that his wife is cared for during her illness and will attempt to secure work for the 15-year-old boy. An effort will be made to raise \$10 per month to send the man to Piedmont Sanatorium. This case is typical of many which have been reported this winter. It originated in a simple request for fuel, but a thorough investigation determined that the real cause of distress was much more serious than the request indicated.

DISAPPROVAL OF BLOC IS VOICED BY THE PRESIDENT

Against Legislation Sponsored By Representation of Farmers.

WASHINGTON, Jan. 5.—President Harding was said tonight by members of the Senate agricultural bloc to have indicated to bloc leaders at a conference today his disapproval of bloc-sponsored legislation providing for farmer representation on the Federal Reserve Board.

The views of the president with respect to the legislation, which is to be taken up in the Senate for final consideration January 17, were outlined to Senators Kenyon, of Iowa, Capper, of Kansas, both Republicans and bloc leaders, who called at the White House accompanied by Senator Kellogg of Minnesota, a Republican member of the finance committee.

None of the three senators would discuss the White House visit but other members of the agricultural bloc said it was their understanding that the president had indicated his emphatic disapproval of the legislation. Some of the bloc members said the president went so far as to indicate he might veto the bill if passed but other members said this was not their understanding.

BEWARE THE COUGH OR COLD THAT HANGS ON

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action: it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist.—adv.

Twenty-Six Alleged Bunco Men Indicted

ATLANTA, Ga., Jan. 5.—Twenty-six men were indicted by the federal grand jury here late today on charges of conspiracy and of using the mails to defraud in connection with operations of Atlanta's alleged "bunco syndicate."

The federal investigation has been going on for several months and the men indicted include the missing Floyd Woodward and a number of others already indicted in State courts on charges arising from operations of the alleged gang which officials estimated has taken more than \$1,000,000 from numbers of victims.

Borah to go Over Harding's Head

Will Publish Gen. Mitchell's Report on Bombing Test Suppressed by Secretary Weeks.

WASHINGTON, Jan. 5.—All the vital points in the bomb-testing report of Gen. William Mitchell will be laid before the Senate, Senator Borah said this afternoon that when the Naval Appropriation Bill comes up he will make public the opinions of Mitchell, which were that the battleship is helpless before aerial attacks.

The Senate recently adopted a resolution offered by Borah calling upon Secretary Weeks for the Mitchell report on the bomb-dropping experiments off the Virginia Capes some time ago.

On the ground that it is "incongruous with the public interest," the Secretary informed the Senate he had been directed by the President not to transmit the report.

Immediate notice was given by Borah that he did not consider the publication of the report as "incongruous with the public interest." He called attention to the fact that after the bombing tests one report was given out and widely distributed.

"That report, as I understand," said Borah, "was altogether favorable to one theory of the experiments. Another report was filed which was quite in conflict with that theory. It was filed with Gen. Mitchell. If it should be found to be true that Gen. Mitchell's theory is the correct one and the facts which he gives support his theory, the first report was wholly misleading."

Borah contended that if the first widely published report was in the public interest, then the report in contradiction of it is entitled to be weighed by the public at the same time.

The report of Gen. Mitchell might materially affect some of the reputations of those who have been passing upon the efficiency of modern battleships, but it would be very interesting to the taxpayer," he said.

"I think I know practically what is in the report and I will state what it is, and if incorrect I shall rely on the Secretary of War to correct the statement."

Veteran Editor Dies In Tacoma

TACOMA, Jan. 5.—Col. (Chas.) Snowden, 74, formerly editor of the Chicago Times and the Tacoma Ledger, died today. One of his journalistic feats was publication in the Chicago Times of the full text of the revised edition of the New Testament, received from London.

He was a national authority on Masonry, in which he held the thirty-third degree, and was the author of a history of Washington state.

The publication of the revised text of the New Testament was one of the journalistic sensations of the early eighties. Snowden sent Charles E. Harrington, New York correspondent of the Times, to London in the hope of obtaining a copy of the revised edition in advance of publication.

Harrington was unsuccessful in London, but he returned to America on the ship that brought back a member of the commission of revision who had a copy in his possession. He obtained the copy and put it on the wires in this city. After leaving Chicago, Times, Colonel Snowden came to this city and for a time served as managing editor of the New York Times. That was in the nineties, after the Jones estate had sold the paper.

John F. Rison Is Ill At His Home

The many friends of John F. Rison will be grieved to hear that he is quite ill at his home on Main street. A recent development coming from an ailment for which he recently took treatment, has made its appearance and some anxiety is being experienced by the members of his family and close personal friends. It is hoped and believed, however, that Mr. Rison who is widely beloved and esteemed will yield to the course of treatment prescribed and that his recovery will be complete.

YOUR INCOME TAX

(In March you'll have to file your 1921 income tax return. Probably you're already beginning to worry about it. So the Bee has asked R. A. Conkey, tax consultant of the Central National Bank Service and Trust Company, Cleveland, to write five articles, covering every income tax problem thoroughly in short questions and answers that you can readily understand.)

By R. A. CONKEY.

Q. 1.—What is the federal income tax?

A.—It is a tax imposed by the United States government upon the yearly earnings of individuals, corporations, etc.

Q. 2.—On what is the tax based?

A.—Upon the net taxable income.

Q. 3.—What is meant by net taxable income?

A.—Gross or total income from all sources, less allowable expenses and deductions.

Q. 4.—What items should be included in gross income?

A.—All amounts received during the year from salaries, wages, commissions, trades, businesses, commerce, or profits from sales or dealings in properties or securities, also from interest, rent, dividends, etc.

Q. 5.—What items are allowable deductions?

A.—All the ordinary and necessary expenses paid or incurred during the year in carrying on a trade or business; travel expenses when on business; rent for business property; interest, taxes (except income taxes) and losses assessed for special improvements, losses sustained in any transaction entered into for profit, or incurred in a trade or business, also bad debts, depreciation, contributions to charitable organizations, etc.

Q. 6.—Who should file income tax returns?

A. (1)—Every individual having a net income for the taxable year of \$1000 or more, if single or if married and not living with husband or wife.

(2)—Every individual having a gross income for the taxable year of \$5000 or more, regardless of his net income.

(3)—If husband and wife living together have an aggregate net income for the year of \$2000 or more, or an aggregate gross income of \$5000 or more, each shall make a separate return or the total income shall be included in a single joint return.

(4)—All corporations must file a return regardless of the amount of net income for the year.

(5)—All partnerships must file a return for information purposes only. The amount of the net profits of a partnership are returnable by the individual members of the firm and taxable to them as individuals whether or not the profits have been distributed.

Q. 7.—When is a return not required?

A. (1)—If you are single, or married and not living with husband or

Firing is Renewed In Belfast Streets

wife, and your net income for the year is less than \$1000.

(2)—If you are married and living with husband or wife and your net income for the year is less than \$2000.

Q. 8.—When should returns be filed?

A.—On or before March 15 unless you keep books on a fiscal year basis in which case a return should be filed by the fifteenth day of the third month after the close of your fiscal period.

Q. 9.—To whom should return be made?

A.—To the collector of internal revenue for the district in which your legal residence or principal place of business is located. If you have no legal residence then your return should be made to the collector of internal revenue at Baltimore. Write to the collector of your district for blanks upon which returns should be made. Stating the probable amount of your net income so that the proper blanks may be sent.

Q. 10.—When and to whom should the income tax be paid?

A.—To the collector of internal revenue of your district. It may be paid in full at time of filing a return, or it may be paid in quarterly installments, March 15, June 15, Sept. 15, and Dec. 15.

Q. 11.—If a person is unable to make his own return who should make it for him?

A.—A duly authorized agent, guardian, or other person charged with the care of the person or property of such person.

(Conkey's second income tax article will appear in The Bee tomorrow.)

Gopher Prairie a Metropolis Compared to This Main Street

TEKONSHA, Mich., Jan. 5.—City folks who go to cock fights, enjoy the thrill of a lottery, dance in those terrible jazz palaces, and otherwise dissipate themselves needn't feel sorry for the small-town people, whose biggest thrill is erroneously reported to be watching the trains go by.

Read what happened here the other day at J. W. Randall's clothing store. The crowd gathered, Mickey a rooster, was placed in the center of the floor. The women looked Mickey over and speculated upon his corn-munching capacity. After which they registered their estimates, and kernel by kernel, the corn was fed.

Mickey ate no less than 309 kernels without stopping except to wipe his neck.

Mrs. Homer Rice won first prize, a sweater; Mrs. Elwood Higby, second, an umbrella; and little Rose Bartlett, third won Mickey himself.

COMPETITORS ELIMINATED BY PLUMBING FIRMS

NEW YORK, Jan. 5.—Charges that 11 corporations and 10 individuals in eastern states had eliminated competition and maintained excessive prices for three years in soil pipe and plumbing fixtures manufactured by them, were disclosed today when the government unsealed indictments returned last week. The indictments charged violation of the Sherman Anti-Trust Act.

All the defendants, who will be called next week for pleading, were members of the Eastern Soil Pipe Manufacturers Association, the Clearing House through which they were alleged to have exchanged bids, price and sale information and other data.

PRESIDENT OF CONCERN CHARGED WITH FRAUD

RICHMOND, Jan. 5.—The Grand jury in the corporation court this afternoon returned two indictments against J. C. Robertson, president of the Southern Paper Company, in which it is alleged he has embezzled funds aggregating \$5,000. The business was established several years ago by John R. Robertson, and his death it passed to his son. The owner of the business, W. C. Robertson, says that the discrepancy was discovered when there was an inventory and audit of the books of the company.

Found! Real Old-Fashioned Girl

MISS LINDIE SPIES, BROOKLYN'S PRETTIEST HIGH SCHOOL GIRL, PREFERS MANDOLIN, DUSTER AND SWEETER TO STARDOM IN THE MOVIES.

BROOKLYN, Jan. 5.—With Miss Lindie Spies voted Brooklyn's prettiest high school girl, it should naturally follow that a stage career or stardom in the movies is her next step.

But that's where the hitch comes in. Instead of to the bright lights of the flickering film, this 17-year-old young lady has her plans all set to turn to a complete education in teaching and cooking.

She wants to be a school marm first—then a good housekeeper. Pleased with the honor bestowed upon her?

"Certainly," she says, "but, if I am pretty it is not due to any effort on my part—so why get excited about it?"

"I like the great outdoors and I love horseback riding and tennis. Perhaps that explains my color. It

doesn't come from rouge.

"I eat regularly and I get plenty of sleep. I guess beauty is a matter of good health, and I've never been sick in my life."

When Miss Spies graduates she will take a two-year teaching course—then become a primary grade teacher.

"Maybe I'll marry some day," she says. "When the right man comes along I will be ready to cook and keep house. My mother has trained me. And I can plan a mandolin, too. But I'm too young to think of marriage now."

"And besides, I want to travel. Beauty is all right, I guess. But brains are what count, and teaching and traveling will give me knowledge."

"Just don't put me down as a would-be movie star, or a Broadway light—rather, just an old-fashioned girl."

supply and demand may mean the difference between a profit or loss upon a whole year's work of the farmer.

"While in every other industry we are abreast of the most advanced nations in commerce, in manufacturing, in banking and merchandising—there is not a nation in the world that cannot teach America something about farming. This has been because of the great abundance of fertile lands in this country, that we could ex-haust one field and then move on West and take up virgin land.

"If our farm is worn out it is our own fault, and if we do not restore it within a reasonable time it is not only our fault, but it is an act of positive treachery to the generations that shall come after us."

Shantung Squabble Appears Hopeless of Any Solution

Chinese Delegation Definitely Refuse to Accept Japanese Proposal For Payment

WASHINGTON, Jan. 5.—(By the Associated Press.)—The Shantung controversy again appeared hopeless of solution late today when, after a one and a half hour session between the Japanese and Chinese delegations, devoted to consideration of the terms of the Kiao-chow Tsinan railway, the latter announced that the Chinese plan for settlement of the road in cash or installment would be ruled out. Only a renewal of the good offices of Arthur J. Hughes, the American mediator, it was said, will bring about a meeting of the two groups.

The Chinese delegation definitely refused to accept the Japanese proposal for payment of the railway by a lump sum, or by a series of payments.

Mr. Hughes had said that the Chinese delegation had agreed to accept the Japanese proposal for payment of the railway by a lump sum, or by a series of payments.

J. Russell Compton Shot In His Car

ATLANTA, Ga., Jan. 5.—J. Russell Compton, president of the Georgia National Life Insurance Co., was shot and killed in his car today. The car was driven by a garage man, who was shot and killed. Mr. Compton had just been shot shortly before six o'clock. A police photographer he would get the machine and come for him. The body was found about 20 minutes after the car was shot. The shooting was done from an alley on which the garage fronts.

FUNERAL SERVICES

PENSACOLA, Jan. 5.—Funeral services were held here today over the bodies of Lieutenants Frank Stomman and Elton C. Hersman, naval aviators who were drowned Tuesday when the plane in which they were flying crashed into the bay. Lieutenant Stomman's body was shipped to Oakland, California, and that of Lieutenant Hersman to Weston, W. Va.

SMALL RIOT RESULTS.

PENSACOLA, Fla., Jan. 5.—Trouble here today between striking longshoremen and strike breakers resulted in a small riot in which several of the latter were badly injured by brickbats and four of the longshoremen are in jail. The longshoremen refused to accept a cut in wages which went into effect on January 1.

Devices to Prevent, Help Detect, Thefts

Inventions designed to prevent automobile thefts are being perfected so they will also facilitate detection of motor car thieves.

Until a short time ago, inventors have been devoting their genius to devising mechanisms intended merely to prevent theft of motor cars. But the "art" of automobile stealing has progressed to such an extent that preventive mechanisms only delayed the thief in his operations.

The result has been that a new class of automobile locks is being produced which, failing to prevent theft, will cause its detection almost instantly.

One of these is an ingenious contrivance being perfected by Deputy Police Commissioner Joseph A. Faurot of New York and Lieutenant James J. Sheehan of the New York police training school. It is called a "Paurot-Scope" and is welded on the left front fender.

First models of this invention, which is now going through a process of several tests and corrections, consist of an electric mechanism showing a circular disc when the car is driven by its rightful owner and a diamond-shaped disc when it is left unattended. The diamond disc is red and carries the inscription: "Tell a policeman if this car moves carrying this diamond disc."

The diamond disc is locked into the mechanism so that it cannot be taken off without causing an automatic alarm horn to be sounded.

While this disc is attached, the motor power is shut off and cannot be started until the disc is unlocked and the circular one substituted. The disc is a theft manager to hammer off the whole mechanism, which he would find quite difficult, he would leave tell-tale holes in the mud guard and would find the motor power shut off. At the same time he would incur the danger of sounding the automatic alarm.

Travels 8,000 Miles to Get Citizenship

OMAHA, Jan. 5.—Max Schroth, of Manila, P. I., traveled 8,000 miles to the United States in order to complete his American citizenship after he had labored for 21 years under the delusion that he was a citizen of the United States.

Born in Germany, Schroth came to this country, and in 1892 enlisted in the United States army at Norfolk, Neb., serving in the Cuban campaign in the Spanish-American war and later in the Philippine insurrection.

He had his first papers and thought that his citizenship could not be questioned, only to learn that he would have to leave the Philippines where he was employed in the government transportation service, and return to America to obtain his final papers.

Schroth set out nearly a year ago, leaving a native wife and six children in Manila, and came to Nebraska where he took up residence in Omaha while his naturalization case was pending in district court. When his final papers were handed to him Schroth said:

"I feel like getting down on my knees and thanking God that I am now a bona fide American citizen."

COMMISSIONER FAUROT, LEFT, AND LIEUT. SHEHAN WITH A MODEL OF THEIR FIRST FAUROT-SCOPE. INSET ABOVE, STEERING POST LOCK.

Another kind of invention which helps detection of a stolen machine is one which locks the steering mechanism so that the front wheels cannot be steered. It is attached to the steering post just below the wheel. It consists of a collar arrangement with teeth which fit into holes so that a slight turn of the steering wheel will engage the teeth and make the wheel immovable.

The only way a car with such mechanism attached can be stolen is by use of a wrecking machine. The front wheels would have to be lifted off the ground, so that the car could be towed off. Sight of a wrecking car moving an apparently undamaged automobile would look suspicious to a policeman. Besides, considerable time would be lost in the operation of lifting the car and moving.

center of the table was a large basket of Bride's roses and at each plate was an old-fashioned nosegay of pink and white roses, to which was attached a card bearing the announcement of Miss Hope Gravely's engagement to Mr. Merrill C. Lee, of Richmond, Va. Miss Gravely's place card was a miniature bride's bouquet.

Plates were laid for twelve. Those present were Mesdames John A. Shackelford, J. A. Brown, K. C. Whitely, R. S. Brown, A. E. Hundley, George Cabell and R. P. Gravely and Misses Hope Gravely, Marion Williams, Kathleen Brown, Lula Jones and Alice Penn.

V. M. I. Basketball Squad to Play Lynchburg Saturday

LEXINGTON, Jan. 5.—Although examinations are in full progress, the V. M. I. basketball squad has been using every spare moment possible in daily practices and are steadily showing improvement. Much time has been spent on shooting practices but frequent scrimmages have been held in which the passing of the ball and floor work is being developed.

Captain Bunting is playing in better form than the previous season and his unerring eye at the basket is more than deadly. Campbell playing the other forward position is showing his old aggressiveness on the floor and his shooting is very good. Summers the giant center promises to excel his record of previous seasons. In the guard positions Ryder and Shannon are not only showing exceptional ability in covering their men but also their passing and floor work will no doubt be a strong factor in giving the forwards many opportunities for field goals. Kyle the miniature sub forward will be a great asset in both shooting and floor work.

BLACK DRAUGHT

OVER 30 YEARS

"Saved Me Many a Sick Spell," Says Texas Farmer, Who Has Long Known Usefulness of Black-Draught.

Naples, Texas.—"I have used Theodore's Black-Draught for years—I can safely say for more than 30 years," declares Mr. H. Cromer, a substantial, well-known farmer, residing on Route 3 from here.

"I am 43 years old, and when a small boy I had indigestion and was puny and my folks gave me a liver regulator. Then Black-Draught was advertised and we heard of it."

"I began to take Black-Draught and have used it when needed, ever since. I use Black-Draught now in my house and certainly recommend it for any liver trouble."

"I have given it a thorough trial, and after thirty years can say Black-Draught is my stand-by. It has saved me many sick spells."

Mr. Cromer writes that the is "never out of Black-Draught," and says several of his neighbors prefer it to any other liver medicine. "I always recommend Black-Draught to my friends," he adds.

This valuable, old, powdered liver medicine is prepared from medicinal roots and herbs and has none of the bad effects so often observed from the use of calomel, or other powerful mineral drugs.

Black-Draught helps to keep the liver in trim, helping prevent or relieve such troubles as constipation, biliousness, indigestion, sick headache.

when his services are called upon. Drewry, one of the mainstays of last year's scrub team, is giving the regular guards a hard fight for a berth while gray a new man is showing improvement and his knowledge of the game will be of great value. Cadis is making the best bid as Summers' understudy and his jumping is excellent. Maloney the other sub forward is working hard and promises to show real form when called upon. The new material in barracks this year is by far the best that has been at the institute and an excellent scrub team is expected.

The official opening of the season will be with Lynchburg College on the Lexington floor on Saturday night. The probable lineup for the game will be: forwards—Bunting and Campbell; center—Summers; guards—Ryder and Shannon.

CHATHAM NEWS NOTES.

CHATHAM, Jan. 5.—The board of county supervisors in meeting this week re-elected J. J. Whitehead, chairman of the board for the ensuing year, allowed \$4,200 for maintaining the seven road machines for the month of January, \$1,500 for farm demonstration work for the ensuing year, allowed a number of small claims, Edwards and others for a road, viewers appointed, J. S. Jones for a road, ordered to be opened; S. C. Brown for a road, viewers appointed. The board adjourned to meet again on next Monday when matters of more importance will be taken up. The beautiful home of Mr. and Mrs. J. J. Patterson, in Woodlawn, was on Monday evening one of mirth and pleasure, the occasion being in honor of their guests, Mr. and Mrs. R. L. Neal, of Brookneal. The game of the evening was progressive rook in which several tables were engaged, and the contest warmly waged with much interest. Delicious refreshments were served and the occasion one of the most delightful of the season.

The Chatham High school, the Chatham Training school and the Chatham Episcopal Institute resumed books this week.

Thomas J. Fitzgerald on last Friday received a severe fall from which he has suffered intensely and for most of the time has been unconscious. His many friends are very much concerned as to his condition, which was on Wednesday morning said to be slightly improved.

Two of the three stores recently purchased by C. O. McCormick at the Hargrave estate have been sold, the store now occupied by D. Globman has been sold to Mrs. P. B. Moses for \$7,400, and the middle store, now occupied by H. J. Shepherd, was purchased by him for the sum of \$6,900. The corner store and the most desirable has not been offered. A lot front-

ing 60 feet and running back about 300, on the Johnson home place, was sold to W. P. Cole, of JVA, for \$2,250.

Mr. Helen Arthur, of Altavista, was this week-end guest of Mrs. J. S. White.

J. H. Hargrave, Jr., is this week visiting friends in Hickory, N. C.

Miss Frances Kerfoot left this week to enter school at Winchester, Va.

Mr. Sallie Shepherd is at home from teaching in North Carolina.

Dr. J. G. Reynolds several days ago had the misfortune to have one side of his face painfully burned. He has since been confined to his room, but is resting quietly.

Louise Bennett, son of J. Tim Bennett, near Whites, is reported very sick and on Thursday his condition was unchanged. The young man first had diphtheria with complications following.

The scholarship is open to any girl whose forbears were in the service of the Confederacy.

HOW CANADA HELPS SOLDIERS

Veterans Settled on Farms and Given Good Loans.

27,000 BENEFIT THEM

CHICAGO, Jan. 5.—Twenty-seven thousand Canadian soldiers have been settled on farms by the Canadian government and \$85,000,000 have been loaned to these men by their government, according to a letter sent to the House of Commons by the Minister of Agriculture, Mr. J. H. Macdonald.

"Aggregated roughly this means that we have placed a population of 125,000 people on the lands," he said.

"Our settlers have been settled partly on free Crown lands, and partly on lands purchased by the government and sold to them. In no case has a settler been required to possess more than \$500. We have, therefore, advanced practically the full purchase price of the lands we have bought, and in addition have advanced up to \$3,000 for permanent improvements such as buildings, fencing, etc., and stock and equipment."

"The risk is necessarily great, but has been taken largely as a re-establishment venture."

"We have been in operation over

ten already very profitable. Some 600,000 acres that were previously raw and entirely uncultivated, have been brought under cultivation. Last year soldier settlers produced field crops worth easily \$15,000,000, to which must be added the value of the increase in stock and the value of poultry and dairy products.

"Out of the \$85,000,000, already expended, \$10,000,000 has been returned to the public treasury. Of due payments, more than 90 per cent was paid."

"Thus far, the number of men who have abandoned their efforts represents 7 per cent of our aggressive settlement. In the cases of abandonment, and despite the collapse of markets, we have salvaged and foreclosed more than 500 cases representing an investment of more than \$2,000,000 without any financial loss."

Mr. Barrett, in his letter mentions that the power furnished these farmers, has, in a great majority of the cases been horses, preferably mares.

"With the shortage of personal capital, even so it had to be furnished with such power equipment as would enable placement with practically no cash outlay. This meant supplying largely as possible to our settlers."

"We felt, in hope that the increase in time provided not merely the necessary replacements, but also afforded a source of revenue."

"Feed crop has been obtained from the farm itself, and no monetary outlay is involved. Power machinery, we felt, would involve for upkeep and fuel supply, a cash outlay that few settlers could be reasonably expected to meet."

"We felt, also that the use of horse power, rather than motor power, would enable our settlers to utilize more of the by-products of the farm."

WILSON EAGER TO SERVE.

FRANKFORT, Ky., Jan. 55.—A message from former President Woodrow Wilson, read in the lower house of the Kentucky General Assembly today, said that "each of my birthdays only make me more eager to serve our great party and through it the country and the world."

The message was in reply to a New Year greeting sent to Mr. Wilson by resolution adopted at a Democratic house caucus.

NORTH CAROLINA PRESS ASSOCIATION GATHERS

WINSTON-SALEM, N. C., Jan. 5. At the mid-winter session of the North Carolina Press Association, which began here today, Richard G. Stockton, president of the chamber of commerce delivered the address of welcome and Archibald Johnson, editor of the Charlotte News, responded. After a discussion of newspaper problems, it was the consensus of opinion that advertising rates cannot be reduced if papers are to maintain their present standard.

BREAD 5 CENTS PER POUND.

CHICAGO, Jan. 5.—A large department store today announced a 10-ounce loaf of bread for 5 cents. The bread will be placed on sale next week, the new price following a similar announcement from a large firm in Boston, and that of a 14-ounce loaf for 5 cents by a chain store in New York.

ENGLISH FESTIVITIES AT THE Y. W. C. A.

A presentation of the Old English Twelfth Night scenes will be given at the Y. W. C. A. tonight at 8 p. m. The program is in charge of the membership committee of which Mrs. A. A. Booth is chairman. About eighteen girls will be dressed in the style of this period and will sing old English carols. Miss Conner's orchestra from R. M. I. will play throughout the evening.

While this entertainment is arranged with the membership in view it is also open to the general public. The committee especially invites the girls from 16 to 75 and men of the same age.

Construction Of
Reserve Banks
Ordered Stopped

WASHINGTON, Jan. 5.—Chairmen of all Federal Reserve Banks were advised today by Governor Harding of the Federal Reserve Board to stop all construction work for which contracts have not yet been let, pending the outcome of legislation before Congress to require Congressional authorization for building operations by Federal Reserve Banks. This action, Governor Harding said, will stop building operations planned in St. Louis, Minneapolis, Cincinnati, Baltimore, Nashville, Jacksonville, Detroit, Louisville, Denver, Oklahoma City and Salt Lake City.

Action of the board is stopping proposed building operations was conveyed to the 12 chairmen of the reserve banks by Governor Harding in a letter made public today when he called attention to the amendment to the Federal Reserve Act proposed by Senator Harris, Democrat, Georgia, which would forbid the Federal Reserve Board to erect any building without the express consent of Congress.

would not affect building contracts already let for construction by reserve banks in various districts.

Building operations planned but let and which will be affected by the board's instruction were outlined by Governor Harding.

Governor Harding also made public in a letter from Secretary Hoover to the board calling attention to the recommendations of the National Conference on unemployment that the Federal Reserve Board, should expedite as far as possible public works in an effort to provide work. I reply to Mr. Hoover, Governor Harding stated the reserve banks' building program would have to await the action of Congress upon the proposed regulatory legislation.

Five Powers Agree
On Sub Abolition

WASHINGTON, Jan. 5.—(By the Associated Press)—The five greatest naval powers of the world decreed today as between themselves abolishment of submarine warfare against merchant ships. To purge the seas forever of this hidden menace to peaceful folk and ships, the world is asked to subscribe to the decree as a new principle of international law.

As adopted by the naval committee of the arms conference, the resolution proposed by Arthur J. Balfour to be immediately effective between the five signatory powers runs as follows:

"The signatory powers recognize the practical impossibility of using submarines as commerce destroyers without violating, as they were violated in the recent years of 1914-1918, the requirements of the protection of the lives of neutrals and non-combatants, and to the end that the prohibition of the use of submarines as commerce destroyers shall be universally accepted as a part of the law of nations they hereby declare that they will not use submarines against other nations to adhere thereto."

Action of the committee is final so far as the conference and the five naval powers are concerned. The conference merely will give formal ratification to the anti-submarine pact when the five power treaty in which it will be incorporated comes up in open session.

The naval committee also adopted the first Root proposal to declare in "simpler" terms to the rules of international law applying to merchant vessels, their full application to submarines and the limitation of the five powers to all other nations to join in the declaration.

When the naval committee adopted the first Root proposal to declare in "simpler" terms to the rules of international law applying to merchant vessels, their full application to submarines and the limitation of the five powers to all other nations to join in the declaration.

BRIBERY PROBE IN
TENNESSEE STARTSManaging Editor Tells of
Happenings in Hotel
Room.

FRANKLIN, Tenn., Jan. 5.—Testimony regarding rumors of legislative corruption and of an effort to detect alleged bribery activities featured the beginning of State Senator E. N. Clabo's trial here today on charges of accepting bribes.

Captain Reese T. Amls, managing editor of the Nashville Tennessean, the first witness, told of a conference held in his office with Speaker W. W. Bond of the Senate, State Senator Edgar Graham, Attorney Jeff McCann and others, when it was agreed that an effort would be made to detect alleged bribery activities in the Tennessee legislature.

Later Sam L. Felts, Nashville attorney, he said, formally agreed to take charge of the movement and he was given \$500 by Attorney McCann "in the effort to establish the fact whether or not bribery existed in the legislature."

The witness told of Felts engaging adjoining rooms in a local hotel, witnesses and others installing themselves in one room and Felts conducting operations in the adjoining room. Witness read from what he said was a memorandum of occurrences in the adjoining room first of what sounded like a drinking party, and after dispersal of members of it, of Felts' conversation with a man whom he addressed as "Senator Clabo," Felts said.

"I'm giving you \$300," and the reply was "you can rely on me."

The next time he had seen Clabo was when deputy sheriffs called him from the dining room of another hotel and arrested him. On cross-examination Captain Amls said he strongly suspected there had been whiskey in the room where Felts was operating but he could not say so of his own knowledge. He denied stating before the Senate investigating committee that he had instructed that whiskey, cigars and lunches be used in the process of trapping legislators.

Attorney W. A. Knight's inference, when cross-examining the witness, that Colonel Luke Lea, editor-in-chief of the Tennessean, had engineered a scheme to trap legislative members, was combated by Captain Amls. He testified that Colonel Lea was ill at his home and unaware of the proposed investigation until it was well under way.

Cut Delivery Costs

THE Ford chassis at only \$295 now
makes possible a light motor delivery
car at a cost so low that merchants can-
not afford to overlook it. And the noted
dependability of Ford products means a
surer delivery service.

With a body to meet your particular re-
quirements, which we can supply at a
nominal figure, there is nothing that will
save you so much in time, help and ac-
tual cash as a Ford delivery car.

If you are operating a merchandise de-
livery, let us show you how the Ford
chassis at its extremely low operating
cost will handle your deliveries quickly
and at a minimum expense.

New Year Resolutions

New Year is the time for good resolutions.
Among others make these:

- (1) I will open a Savings account immediately.
- (2) I will take that money out of the bureau drawer and put it in the Bank where it will be safer and draw interest.
- (3) For one whole year I will save at least a tenth part of all the money I get.

As happiness makers these resolutions are
hard to beat.
